

E-Passes will be issued three working days before the meeting to all registered participants. Participants are requested to present this invitation and the e-pass received by email at the reception desk of the building.

The European Commission will, in accordance with its rules, bear the travel expenses of one expert per Member State.

Experts will be reimbursed by submitting their travel documents electronically via the AGM system. For further information please see: <https://ec.europa.eu/tools/agm/en>

DRAFT AGENDA

1. Mineral oil hydrocarbons (MOHs) in food:
 - a. Draft Regulation on maximum levels for MOAH in food (SANTE PLAN 2023-2345).
 - b. Draft Recommendation on the monitoring of MOHs in food (SANTE PLAN 2023-2727).
 - c. Draft Regulation on the methods for the sampling and analysis of MOHs in food (SANTE PLAN 2023-2726).
2. 2024 update of the risk assessment of inorganic arsenic in food (EFSA presentation).
3. Draft Regulation as regards maximum levels for inorganic arsenic in fish and other seafood (SANTE PLAN 2023 1241).
4. Follow-up to CCCF17
 - a. MLs lead in spices
 - b. EU contribution to the Codex code of practice for the prevention and reduction of cadmium contamination in foods.
5. Discussion on the establishment of maximum levels for 3-MCPD esters and glycidyl esters in foods other than the foods for which a maximum level is already established in Regulation (EU) 2023/915.
 - a. Processed cereal-based foods for infants and young children and baby food
 - b. Other foods
 - c. Application of the MLs for vegetable oils used for frying
6. Acrylamide – Discussion on the
 - a. review of existing benchmark levels
 - b. establishment of benchmark levels for new foods
 - c. establishment of maximum levels
7. N-nitrosamines in food. Discussion on risk management measures.
 - a. Discussion on a draft monitoring recommendation
 - b. Compilation of good practices to prevent/minimize the presence in food
 - c. Establishment of maximum levels

8. Presence of furan in baby food – recent RASFF notifications – discussion on possible follow-up.
9. Polycyclic aromatic hydrocarbons (PAHs). Discussion on the possible setting of, or review of, existing maximum levels (MLs) .
 - a. Establishment of MLs in freekeh (roasted durum wheat)
 - b. Review of MLs in smoked meat and smoked fish.
Establishment of ML in smoked cheese and other relevant commodities (continuation of discussion on 23/05).
Extension of ML to meat, fish and cheese in which smoked ingredients are used.
 - c. Review of MLs in liquid infant formula, follow-on formula and young-child formula
10. Monitoring of furan-2(5H)-one and benzene-1,2-diol in smoked meat and meat products, cheese and fish and other relevant commodities (continuation of discussion on 23/05).
11. Monitoring of the presence of Bisphenol A (BPA) in food combined with follow-up investigations on the source of contamination (continuation of discussion of 23/05).
12. Control plans on contaminants (CDR (EU) 2022/931 and CIR (EU) 2022/932)
13. A.O.B.
