

EUROPEAN COMMISSION
DIRECTORATE-GENERAL FOR HEALTH AND FOOD SAFETY

Food and feed safety, innovation
Food processing technologies and novel foods

Meeting:

Working Group on Environmental and Industrial Contaminants in food

Location: Virtual meeting

Date: 18 February 2025

Time: 9h30 – 17h30

AGENDA

1. Risk assessment of complex organoarsenic species in food
2. Available methods for the analysis of small organoarsenic species in food.
3. Approach for regulating MOAH in food additives
4. Metals and iodine in seaweed
5. Mercury in canned fish
6. Draft Commission Regulation updating the performance criteria established by Commission Regulation (EC) 333/2007 for certain processing contaminants.
7. Discussion on the approach/ establishment of maximum levels for 3-MCPD esters and glycidyl esters in foods other than the foods for which a maximum level is already established in Regulation (EU) 2023/915.
8. Discussion on maximum levels of alkylfuran in babyfood in view of targeted stakeholder consultation.
9. Polycyclic aromatic hydrocarbons (PAHs) in smoked meat and smoked fish, smoked cheese and other relevant commodities. Discussion on the comments received following the targeted stakeholder consultation.
10. Draft Commission Recommendation on monitoring of furan-2(5H)-one and benzene-1,2-diol in smoked meat and meat products, cheese and fish and other relevant commodities
11. Draft Commission Recommendation on the monitoring of N-nitrosamines in food.
12. Control plans on contaminants (Reg. (EU) 2022/931, Reg. (EU) 2022/932) – minimum control frequencies for certain commodities
13. A.o.b
